Safety improvement works for an inner Ipswich city intersection

Work to upgrade the inner Ipswich city intersection of Limestone Street and Gordon Street is underway to help improve safety for motorists and pedestrians.

Member for Ipswich Rachel Nolan announced the project as excellent news for the 30,000 motorists using the busy intersection every day.

"This \$300,000 Safer Roads Sooner project is part of the Queensland Government's commitment to the local Ipswich community to improve safety for motorists and pedestrians in this fast growing region," Ms Nolan said.

"The upgrade will involve installing new green arrows to the existing traffic signals to improve safety for motorists turning right from Gordon Street north into Limestone Street.

"The existing traffic signals will also be upgraded to brighter lanterns to improve visibility for motorists.

"Pedestrian crossing facilities will also be upgraded with new tactile indicators installed on the footpath to support vision impaired pedestrians."

Work on the intersection commenced in late March and is scheduled to be completed by late May, weather permitting. Works are taking place between 9am and 3:30pm Monday to Friday and overnight between 8pm and 5am to reduce impacts on peak travel times.
