## Home and Community Care Home Modification service receives \$383,664

Member for Ipswich Hon Rachel Nolan MP has announced that Home and Community Care Home Modification Service in Ipswich will receive funds of \$383,664 to continue their services in 2009-10.

Home and Community Care (HACC) Home Modification Service, a joint Federal and State Home and Community Care program, assists older and frail persons, and younger persons with moderate, severe or profound disabilities, who need support with home modifications to prevent premature or inappropriate long-term residential care in a hostel, nursing home or similar institution, and the carers of those persons.

"These funds are essential to allow the aged and young disabled to stay at home, with their family and carers, for longer," said Ms Nolan.

HACC Home Modification Services may provide information, assessment, project management and/or financial assistance with home modifications. Examples of these services include the installation of safety aids like alarms, ramps and support rails in the home.
